PROFESSIONAL SUMMARY

Backend engineer with 5 years of experience in customer-facing integrations and workflow automation. Strong in TypeScript and Java, with practical experience in databases, queues, and CI/CD.

TECHNICAL SKILLS

TypeScript, Java, Node.js, Spring Boot, PostgreSQL, MySQL, RabbitMQ, REST, OAuth, Docker, Kubernetes, Jenkins, OpenTelemetry

EXPERIENCE

Backend Engineer — Connectly | 2022–Present
Built integrations with third-party customer platforms, including OAuth, webhook validation, retries, and reconciliation jobs. Developed queue-backed workflows and deployed services with CI/CD. Participated in production support rotations.

Software Developer — ShopBridge | 2019–2022
Created Java APIs for order management, maintained PostgreSQL and MySQL databases, and added tracing and service-level dashboards.

PROJECTS

Partner Sync Service: State-based workflow for syncing customer orders and handling failed API calls.
Operations Metrics API: Aggregated service and business KPIs for internal dashboards.

EDUCATION

B.Eng. Computer Engineering — Universidad Politécnica de Madrid, 2019
